

C-452EB

C-452EB, C-452EB Black: 48-volt preamplifiers with built-in bass-rolloff facilities. Same functions, performance characteristics and size as C-451EB and C-451EB Black, but intended for use only with existing 48-volt (nominal) phantom-power installations. Provide a quick, simple way to make all C-450 system microphone combinations compatible with such installations. Each complete with foam-lined vinyl case.

Frequency Range: 5-30,000 Hz

Acceptable Phantom-Power Source: 48 volts dc, $\approx 3\text{mA}$

Finish: C-452EB: Nickel-plated brass

C-452EB Black: Black-chrome-plated brass

Overall Dimensions: $5\frac{3}{8}$ " long x $\frac{3}{4}$ " dia.

Net Weight: 3 oz.
